SHRI JAWAHARLAL DARDA EDUCATION SOCIETY'S
**JAWAHARLAL DARDA INSTITUTE OF
ENGINEERING & TECHNOLOGY, YAVATMAL**

OUR INSPIRATION

LATE SHRI. JAWAHARLAL DARDA

Freedom Fighter, Journalist & Statesman

Dr. Vijay Darda

M. P. Rajya Sabha (1998-2016)
& Founder President JDES Yavatmal
Chairman, Lokmat Media Pvt. Ltd.

Shri. Rajendra Darda

Editor-in-Chief, Lokmat Media Pvt. Ltd.
Ex-Minister-School Edu. Govt. of MH. &
Former Vice-President JDES, Yavatmal

Shri. Devendra Darda

Managing Director
Lokmat Media Pvt. Ltd.
President JDES, Yavatmal

Dr. Kishor Darda

Secretary
JDES, Yavatmal

Shri. Rajesh Jain

Chairman, EMCO Ltd.
Vice-President JDES, Yavatmal

Dr. R. S. Tatwawadi

Principal
JDIET, Yavatmal

From the desk of **FOUNDER PRESIDENT**

In the era of globalisation, the recent technological advancement and information explosion has influenced our lives in more than one ways. Today's key question is how to take full advantage of the technology revolution taking place at an amazing speed. I am confident that our students will take up the challenge and make India technologically self-reliant.

I take great pleasure in extending my fullest support for the overall development of Jawaharlal Darda Institute of Engineering & Technology, Yavatmal. I am confident that it will become a centre for excellence where the accent is on quality & speed and every outgoing student will work for the upliftment of the society.

Dr. Vijay Darda

M.P. Rajya Sabha (1998-2016)
& Founder President, JDES, Yavatmal

From the desk of **PRESIDENT**

Jawaharlal Darda Institute of Engineering and Technology is marching ahead with a mission to "Provide highest quality resources, learning processes and research to create technically qualified professionals capable of making significant contribution to individual and social empowerment".

We believe in providing highest quality technical education in this region of Vidarbha almost in all technological fields. Our aim is to create talent for tomorrow. We welcome all the aspirants of technical education in the campus of JDIET, an opportunity for transformation.

Devendra Darda

President, JDES, Yavatmal

From the desk of **SECRETARY**

Recognising the breakneck speed of technological development in today's world, JDIET has embarked on a mission to empower today's youth, particularly in the rural areas, with technical skills that would make them a responsible member of the global village. It is our endeavour to develop human talent, which will help in upgrading the human index in a peaceful, harmonious and most importantly eco-friendly manner.

I feel that the youth are most vibrant and socially responsible resource of a society. Therefore, here at JDIET, we inculcate social values in our students along with technical skills to serve the society better.

Kishor Darda

Secretary, JDES, Yavatmal

OF ENGINEERING & TECHNOLOGY, YAVATMAL

JDIET has been committed excellence in engineering education since past 3 decades. We feel proud that we have inculcated attributes in our students for making them a professionally sound engineer.

Institute is determined to provide quality engineering education and required facilities to the students by undergoing reforms. Institute is focused on all-round development of students by providing different industry ready courses and skill development programme. These programmes enhance employability and make the students self-sufficient engineers. Additional courses on personality development, ethics and moral values are also conducted for students so as to make them understand their responsibility towards society.

Institute has taken initiatives in the field of Industry Institute Interaction with an objective to get internship and placement opportunities for students. Various activities are conducted in collaboration with different agencies for making students understand the importance of entrepreneurship.

A lot of emphasis is given on research and innovation and our students as well as faculty members are always encouraged to excel in this field. Facilities and scholarships are provided for the same. Students and faculties are encouraged to participate in different internships, webinars and online courses. We have established a start-up cell and an incubation centre to transform ideas into a real project.

We at JDIET are trying to profess the essence of National Education Policy-2020 for professional higher education such as ethics, importance of public purpose, discipline, interdisciplinary thinking, debate, research and innovation.

Dr. R. S. Tatwawadi
Principal, JDES, Yavatmal

TESTIMONIALS

I am very pleased to see this sprawling campus of Jawaharlal Darda Institute of Engg. & Tech. Here one sees a state of the art physical and digital infrastructure. I am sure this college will progress well and meet the demands of aspiring learners of Vidarbha and the entire country. I would like to see this campus transformed into a digital campus so that best of education services can be made available to students, teachers and management people.

VIJAY BHATKAR

Chairman
ETH Research Lab, Pune

This is a tremendous institution. I am very impressed by what I have seen. The physical facilities are very functional and beautiful. More important, the students, faculty, administration and staff are working hard promoting technical education. This cannot help but secure your university's bright future. Well done.

SHIU-KAI-CHIN

Dean, Syracuse University
New York, USA

It is my first time to visit this Engineering College but I must record that this is a model college. I have never seen such a college in the rural part of Maharashtra. Dynamic visionary leadership, faculty and students, rich laboratories & beautiful campus impressed me & I am carrying that impression & sure that one day this Jawaharlal Darda College will be one of the best Engineering Institute in the country and very soon autonomous with University status. I convey my best wishes to this institute.

DR. S. N. PATHAN

Ex. Vice Chancellor
RTM Nagpur University, Nagpur.

JDIET

VISION
Deliver
Excellence
in Engineering
Education

MISSION
Provide
highest quality resources,
learning processes and
research to create
technically qualified professionals
capable of making
significant contribution to
individual and social
empowerment.

About JDIET

Jawaharlal Darda Institute of Engineering and Technology (JDIET) was established in 1996 by Shri Jawaharlal Darda Education Society, Yavatmal under the leadership of Dr. Vijay Darda, Founder President of JDES, Chairman, Lokmat Media Group and Member of Parliament, Rajya Sabha (1998 to 2016) The institute is named after Late Jawaharlal Darda alias "Babuji", who was a great freedom fighter, statesman and editor.

JDIET is a Hindi linguistic minority, self-financed private Autonomous Institute and affiliated to Sant Gadge Baba Amravati University. The UG programmes offered by the Institute are approved by All India Council of Technical Education (AICTE) and Directorate of Technical Education (DTE) Government of Maharashtra

JDIET is committed to provide quality engineering education considering overall development of students. The facilities, curriculum conduction, events, research opportunities enables students for employability and all round development.

DEPARTMENT OF CHEMICAL ENGINEERING

Exploring unforeseen possibilities !

An AIM in life
is the only fortune
worth finding

It would take too long to discuss all the numerous contributions of chemical engineers to societal development. Chemical engineers work in manufacturing, pharmaceuticals, healthcare, design and construction, pulp and paper, petrochemicals, food processing, specialty chemicals, polymers, biotechnology, and environmental health and safety industries, among others. And of course, apply their engineering knowledge to solve any technical challenges that occur. It therefore follows that chemical engineers are one of the pillars of our society. Keeping in view the vast demand for Chemical Engineers, the institute opted for a branch of Chemical Engineering since from its inception. Chemical engineers have wide openings in all chemical processing units, private and government chemical laboratories, power generation plants, oil and gas sector, food processing units and various research units. There are number of public sector enterprises, government undertakings & private sector units which require chemical engineers to achieve their infrastructural targets. Above all, there is an enormous demand for chemical engineers abroad.

DEPARTMENT OF CIVIL ENGINEERING

Building the Nation !

Civil engineering is a professional engineering discipline that deals with the design, construction, and maintenance of the physical and naturally built environment, including works like roads, bridges, canals, dams and buildings. Civil engineering is the second oldest engineering discipline after military engineering, and it is defined to distinguish non-military engineering from military engineering. Its sub disciplines are Construction Engineering, Costal Engineering, Environmental Engineering, Structural Engineering, Water Resources Engineering, Surveying, Transportation Engineering, Geotechnical Engineering and Earthquake Engineering.

The growing need for efficient use of the earth's resources of land, air, water and raw materials as well as for efficient design, analysis and maintenance of civil structures requires a better insight in the spatial and temporal patterns of resources and

activities. As such the present day society needs civil engineering education capable of providing such an insight. A major focus of the efforts immediately and in the next decade is on infrastructure development. Therefore, Civil Engineering branch is present need to cater future requirements. Civil engineering has staged a vigorous comeback in terms of its popularity as a branch of study at the undergraduate level after being pushed out of the limelight for many years. This gain in popularity in a large measure can be attributed to the boom in construction across the country.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Evolving industry ready Professionals !

Department of Computer Science and Engineering (CSE) focuses on nurturing technically skilled, innovative, and socially responsible engineers. Our curriculum is designed to equip students with a strong foundation in computer science while integrating modern technologies such as Artificial Intelligence, Machine Learning, Data Science, Cloud Computing, Cyber security, Block chain, and the Internet of Things.

We emphasize outcome-based education, blending theoretical learning with practical exposure through well-equipped labs, smart classrooms, mini and major projects, internships, and industrial interactions.

The department fosters all-round student development through active student clubs. The Computer Society of India (CSI) Student Chapter conducts technical workshops, coding contests, and expert lectures to enhance professional skills. The PACE Club (Pioneer Association of Computer Engineers)

organizes extracurricular and personality development activities such as debates, quizzes, and cultural events. The AI Club provides a platform for students to explore Artificial Intelligence and Data Science through hands-on projects, knowledge-sharing sessions. Our students avail strong placement opportunities in reputed organizations such as TCS, Infosys, Capgemini, Accenture and Wipro. Many also pursue higher studies at top institutions or launch their own startups.

DEPARTMENT OF ELECTRICAL ENGINEERING

Energizing and Illuminating The Life !

Electrical Engineering basically deals with the study and applications of electrical energy, electronics and electromagnetism. Electrical Engineering has provided the largest beneficial impact on modern society through electrical generation, transmission and distribution of power among many other technological breakthroughs. The field of Electrical engineering involves generation, transmission and distribution of electrical power, electrical circuit design, electronic instrumentation, control system, understanding electrical and electronic networks. The entire world is experiencing one of the most impactful technological revolutions in the field of Electrical Engineering in terms of renewable energy generation, transformation of IC engine based vehicles into electric vehicles, energy efficient lifestyle and eco-friendly domestic and industrial devices. Graduates of Electrical Engineering have tremendous career opportunities to enter in areas such as, but not limited to, power generation, transmission and distribution, renewable energy, e-vehicles, aerospace, automation, computer engineering, robotics and the list is endless.

DEPARTMENT OF ELECTRONICS & TELECOMM. ENGINEERING

Network with Future !

Electronics, particularly coupled with telecommunication, has crept into every sphere of human activities. It is now a part of our everyday life, from smart televisions, hand-held devices, computers, smart mobile phones and even high-end satellites. The Department of Electronics & Telecommunication Engineering is developed in response to the needs of industry through advanced knowledge and skills in the design of complex electronic and tele-communication systems. The students of E&TC are competent to face the tough challenges of this field with emphasis on Communications, DSP, Microelectronics, VLSI, IoT & Embedded Systems, Image Processing and Computer Vision, Microwave Engineering, Industrial Automation, Robotics coupled with coding and other IT perspectives. There is a huge demand for competent engineers in Electronic & Telecommunication Industry.

An electronics & telecommunication engineer has opportunities of work in the field of Consumer Electronics, Telecommunication Industry, IT industries, Health-care equipment manufacturing industry, Mobile Communication, Internet Technology, Power Electronics, and other industries like Steel, Petroleum and Chemical Industry.

DEPARTMENT OF MECHANICAL ENGINEERING

Where Education Meets Expertise

Mechanical engineering is an oldest, broadest and inevitable part of the industrial establishment. It covers all aspects of engineering right from design to finished product. Mechanical engineering is the most versatile branch and students find global opportunities with lucrative pay & packages. The mechanical engineering includes multidisciplinary fields like Electric Vehicles, Aerospace, Robotics, Artificial Intelligence & Mechatronics.

A student in Mechanical Engineering will acquire knowledge regarding the designing of electric vehicles, automobiles, aircraft, and various other heavy machines. The scope of Mechanical Engineering is vast as different industries open their doors for students from the field of Mechanical Engineering as a Multidisciplinary Engineer.

The department is continuously focusing on the Research and Development activities to facilitate participation of students in various thrust areas. The students are always encouraged to engage themselves fitfully in curricular & extracurricular activities to enlighten their future.

DEPARTMENT OF TEXTILE ENGINEERING *Threading Dreams into Reality !*

Textiles is one of the largest industrial sectors across the globe. It fulfils one of the basic necessities of human beings. Textile engineering deals with the applications of scientific principles and engineering practices, covering wide-ranging aspects of textile processes, products and machineries. Since the textile industry contributes major share in total industrial production and accounts around one third of total Indian exports, it is one of the largest contributors to India's Gross Domestic Product (GDP),

Along with glamorous garment and fashion industry. Textiles offer enormous employment opportunities in the diverse field of Textile Engineering such as Spinning, Weaving, Knitting, Chemical Processing, Non-wovens, and Apparel. Emerging Technical Textile fields such as Smart Textiles, Nanotechnology-based Textiles, Geotextiles, Medical Textiles, Space Textiles etc. offer very promising careers in research and its application areas.

INFRASTRUCTURE

Books...The ladder of Success

LIBRARY : Knowledge World !

The college houses a Central Library and seven departmental libraries. The Central Library is an independent, fully-equipped building, with book acquisition section, Technical Processing Section, Circulation section, E-Catalogue (OPAC), Reference Section, Periodical Section, Newspaper Section, Reprographic Section and a Digital Library. The library uses ERP CAS software package with barcode system which is an integrated multi-user library management system that supports all in-house operations of the library. The CAS consists of modules on acquisition, cataloguing, circulation, serials, article indexing and OPAC.

Library resources

The library has developed an excellent collection of 53418 books, No. of 402 e-journals & periodicals, non-book materials like Audio & Video contents in science, engineering, technology, humanities, social sciences and management subjects. The college has established a digital library for access to electronic study material.

MEDICAL FACILITY

A well-equipped medical first aid facility is available in the campus at various locations for the benefit of students and staff members of the institute.

SPORTS

The institute has excellent sports infrastructure huge playground along with indoor badminton, table tennis courts & Yoga Center. College level sports competitions are organised at the time of social gathering. Students of all years put in their efforts to make the entire environment very sportive. In last few years, students of JDIET represented University for Chess, Power lifting, Volleyball, Cricket, Taekwondo, Football and Youth Festival events and grabbed the colour coats from university.

Knowledge and Internet Centre

Jawaharlal Darda Institute of Engineering & Technology has an exclusive centre for knowledge and Internet browsing. Set in an innovative designed, pleasing environment, there are a number of terminals with high speed Internet connectivity. This centre is open for students during college hours.

HOSTEL

Institute offers hostel facilities with well furnished rooms for boys. Hostel has various facilities such as attached washroom, several indoor and outdoor games, television set, reading room, wifi internet facility & cctv surveillance etc.

FACILITIES

- Advanced and well-equipped 67 laboratories & 4 workshops.
- Wi-Fi campus & dedicated leased line of 300 Mbps for Internet access.
- University recognised laboratories for research & Ph.D. work.
- Exposure to industry by frequent industrial visits.
- Active training and placement cell.
- Book bank facility.
- ICT Enabled Class Rooms.
- Playground and indoor courts.
- Barrier Free Green Environment.
- ISTE chapter for students.
- Career counselling.
- Experts seminars from industrialists & academicians
- Ramp and toilets are developed for physically challenged person
- Language lab for soft skill development.
- RO purified drinking water facility.
- Hostel facility with Wi-Fi connectivity
- Dinning Pavillion
- Hobby Clubs
- Institute campus is equipped with fire preventive system.
- Computerised College Administration System (CAS).
- In Campus Solar Power Plant of 200 kW.

Note: Chewing tobacco & smoking is strictly prohibited in institute campus

Schemes & Scholarships

The institute is in constant pursuit of creating a culture where students find themselves in a progressive state of mind throughout their stay at JDIET. To achieve this objective, the institute has decided in its policy matters to incorporate certain provisions solely aimed to benefit students. Some of these are:

- ◆ Gold Medal Scheme for University toppers.
- ◆ BOI sponsored awards for toppers.
- ◆ Sponsorship for students to present research papers at international & national levels.
- ◆ Sports and cultural competition.
- ◆ Celebrations of events.
- ◆ Departmental Clubs/Associations.
- ◆ Frequent industrial visits
- ◆ Periodical technical training courses.
- ◆ Personality development programmes for Interviewing Skills, Group Discussions etc.
- ◆ Tuition fee waiver scheme for meritorious students.
- ◆ Scholarship for backward class students.

FACULTY

The institute has a pool of highly qualified and experienced faculty, all of them are dedicated to promote student's aptitude in various disciplines. A majority of teachers have acquired Ph. D. degree in their respective field and others are on the way to acquire the same. The faculties are well trained to adopt new teaching tools and techniques for the students of new technological era.

PLACEMENT INFORMATION

TRAINING & PLACEMENT CELL

Moulding tomorrow's professionals, today!

The Training and Placement Cell is a bridge between students and industries. The cell is not only giving opportunities to students in industries but also building interaction with the industries so that the students can be exposed to new techniques and trends. The objective is to provide training to all students in every respect and to raise their awareness levels as per today's requirements and needs of industries. It also provides a platform by arranging campus/group campus interviews with companies' recruitment representatives.

PLACEMENT DATA

In last five year JDIET arranged around 240 plus placement drives for its students and 821 plus students got selected through these placement drives.

National & Multinational companies where our students found the place to start their career...

**PLACED
STUDENTS OF
SESSION
2024-25**

JDIET ALUMNI ASSOCIATION, YAVATMAL (Reg. No. F-0022044 (YVT))

The Alumni are the brand ambassadors of the institute and a matter of pride. The JDIET Alumni Association aims to link the alumni to the institution, develop synergistic plans to support the institution and achieve its vision, and to enable the institute to add value to all its stakeholders. The Institute established alumni cell and having registered alumni association to maintain a good linkage between institute and alumni. The JDIET Alumni cell creates a lifelong bond between the institute and its alumni, JDIET has a pool of more than 8500 alumnus. One of the most remarkable achievements of JDIET is the global acceptance of Alumni. It is really worth proud to mention that the Alumni of JDIET are excelling in their chosen career in more than 26 developed countries across the globe and are contributing to their employing firms in the most efficient manner. Also, many of the alumni are pursuing their higher technical education in reputed foreign universities.

Every year, the Alumni Association organizes an Alumni meet to foster strong bonds between alumni, students and the institute and felicitates best alumni from each department.

CENTRALISED ADMISSION PROCESS

Institute is abide to the rules and regulations decided by Competent Authority (The Commissioner of State Common Entrance Test Cell, Maharashtra State/DTE, Mumbai) regarding Eligibility, allocation and reservation of seats, for admission in JDIET.

Steps followed for Admission Process as per the Guidelines given by competent authorities.

1. Online registration of application and uploading of required documents by the Candidate for admission on DTE/CETCELL website.
2. Documents verification and confirmation of Application Form for Admission by offline/online mode
3. Display of the Provisional Merit lists of Maharashtra State/All India Candidates on website
4. Submission of grievances if any, for all type of Candidates:
 - Candidate shall raise the Grievance about correction required in the data displayed in provisional merit list through his/her Login.
 - The application of such candidates shall be reverted back to the candidate in his/her Login for rectification.
 - Candidate shall upload the requisite documents to substantiate the claim for any correction/concession.
 - The status of acceptance/rejection of Grievance raised by candidate shall be available in candidates Login along with latest receipt cum Acknowledgement.

Those Candidate who selected physical scrutiny mode shall visit Scrutiny Centre (SC) for resolving the grievances

5. Display of the Final Merit lists of Maharashtra State/All India Candidates on website
6. Online Submission & Confirmation of Option Form of CAP Round-I through candidate's Login by the Candidate.
7. Accepting to the offered seat by candidate through his/her login as per Allotment of CAP Round I.
 - a. Candidates who have been allotted the seat as per their first preference in Round I (Auto freedzed) or Candidates who have allotted other than first preference and self freedzed their allotment in Round I through their login must accept the seat and shall pay seat acceptance fees through online mode. Such candidates shall not be eligible for participation in subsequent Rounds, then report to the Allotted Institute and Confirmation of Admission by submitting required documents and payment of fee after CAP Round I.
 - b. Candidates who have allotted other than first preference and want betterment in the subsequent rounds must claim the allotted seat in Round I by accepting that seat by choosing Not Freeze option for betterment and shall pay the seat acceptance fee through their login by online mode.
8. Online Submission & Confirmation of Option Form of CAP Round-II through candidate's Login by the Candidate.
 - a. Candidates who have been allotted the seat as per their first 3 preferences in Round-II (Auto freedzed) or Candidates who have allotted other than first 3 preferences and self freedzed their allotment in Round-II through their login must accept the seat and shall pay seat acceptance fees through online mode. Such candidates shall not be eligible for participation in subsequent Rounds, then report to the Allotted Institute and Confirmation of Admission by submitting required documents and payment of fee after CAP Round-II.
 - b. Candidates who have allotted other than first 3 preferences and want betterment in the subsequent rounds must claim the allotted seat in Round-II by accepting that seat by choosing Not Freeze option for betterment and shall pay the seat acceptance fee through their login by online mode.
9. Rules for CAP round III are as CAP Round II except first 6 preferences are auto freeze.
10. Online Submission & Confirmation of Option Form of CAP Round-IV through candidate's Login by the Candidate.
11. Accepting to the offered seat by candidate through his/her login as per Allotment of CAP Round IV.
12. Reporting to the Allotted Institute and Confirmation of Admission by submitting required documents and payment of fee after CAP Round IV.

INSTITUTE LEVEL ADMISSIONS

JDIET follows a transparent mechanism for admission to UG courses as per the norms and guidelines by government of Maharashtra. The competent authority is the director of technical education Maharashtra state, Mumbai. Candidates seeking admission against the institute level seats have to apply separately to the institute. For more details, visit www.jdiet.ac.in, www.fe2025.mahacet.org

RULES FOR REFUND OF FEES AFTER CANCELLATION

Before cut off date of admission process, the student can apply online for the Cancellation of admission through the Seats belonging to Government quota, Minority quota, Institute quota. The fees will be refunded as per the rules published in State Common Entrance Test Cell Undergraduate Technical Courses Information Brochure for CAP and UGC Guidelines vide D. O. No. F. 2-71/2022 (CPP-II) (C-114546) Dated 12 June 2024.

Mode of Payment

Fees for institute and hostel payment or examination can be paid online or by Demand Draft or Banker's Cheque of any Bank in favour of Principal, JDIET, Yavatmal. Fees for academic year 2025-26 is as mention below -

Tution Fee	:	Rs. 79,130.00
Development Fee	:	Rs. 11,870.00
Caution Money (Refundable)	:	Rs. 5,000.00
Other Fees (Exam + University)	:	Rs. 4,325.00

Transfer after one year for Course

The Candidate seeking for a change in course or shift after successfully completing the First Year of studies will be allowed to do so in the same institution subject to the availability of seats and changes will be carried out based on the marks of First and Second Semester together. The transfer process will be carried out as per the guidelines of competent authority.

Scholarships :

For SC/ST/VJ/DT/NT(A)/ NT(B)/NT(C)/NT(D)/SBC/OBC/SEBC category candidates, the scheme/mode of concessions, scheme of loan scholarship (if any) for eligible candidates, in tuition and other fees will be announced by the Central/ State Government.

These candidates will get only that amount of waiver as notified in the circulars issued by the Government Department from time to time, subject to fulfilment of norms and conditions laid down by these Departments.

Candidates claiming scholarships under various categories shall produce the requisite certificates as may be specified by the respective Government Departments.

DOCUMENTS REQUIRED FOR FIRST YEAR AND DIRECT SECOND YEAR ADMISSION

First Year

Aadhar card
S.S.C. mark sheet
H.S.C. mark sheet
Diploma mark sheets (all year / semester)
College leaving certificate (Transfer Certificate)
Caste certificate*
Caste validity certificate*
Non-Creamy layer certificate*
Migration Certificate (For OMS candidate)
Nationality certificate & Domicile Certificate
MHT-CET / JEE Main Score sheet
Minority Affidavit (If required)
Gap Certificate (If required)

Direct Second Year

Aadhar card
S.S.C. mark sheet
Diploma mark sheets (all year / semester)
Diploma mark sheets (all year / semester)
College leaving certificate (Transfer Certificate)
Caste certificate*
Caste validity certificate*
Non-Creamy layer certificate*
Migration Certificate (For OMS candidate)
Nationality certificate & Domicile Certificate
Minority Affidavit (If required)
Gap Certificate (If required)

* For only Backward class candidate.

About PM-Vidyalaxmi Scheme

The Union Cabinet on 6th November 2024 approved “Pradhan Mantri Vidyalaxmi” (PM-Vidyalaxmi), a Central Sector Scheme to financial support to meritorious students so that financial constraints do not prevent any youth of India from pursuing quality higher education. The broad contours of the scheme are:

- A mission mode mechanism will facilitate and drive the extension of education loans to meritorious students who get admission in the top 860 quality Higher Educational Institutions (QHEIs) of the nation, translating to covering more than 22 lakh students every year.
- A special loan product will enable collateral free, guarantor free education loans; made accessible through a simple, transparent, student-friendly and entirely digital application process.
- Loan amounts up to ₹7.5 lakhs will be provided a 75% credit guarantee by the Government of India, to support banks to expand coverage.
- Furthermore, for students with up to Rs. 8 lakhs annual family income, the scheme will also provide for 3% interest subvention on loans up to Rs 10 lakh.
- This is in addition to the full interest subvention already offered to students with up to Rs. 4.5 lakhs annual family income.
- The Scheme is applicable for all Scheduled Banks/Regional Rural Banks (RRBs)/Cooperative Banks.
- For more details visit : <https://pmvidyalaxmi.co.in>
